</thead>
<tbody>
<tr>
<td>April 20th, 2019 - Sir we've been assembling our battery charger and sold for very long time but until now I could not determine the exact output amperes of my charger. We've just limit the output charging amperes at 6 amperes. It can charge up to 15 different size of batteries. We've just determined the battery charged by using battery load tester and hydrometer tester. What tools were used to determine the output?</td>
