National University Diploma in Nursing Practice as a Nurse Practitioner Programme Overview

The role of the nurse practitioner in Fiji

In order to meet the goal of health for all, Fiji has adopted the primary health care approach to the delivery of health care. This approach is designed to make comprehensive health, although the provision of facilities and staffing at Fiji National University FNU libraries appear to be adequate, there seems to be less emphasis on quality service delivery in the customers' eyes. This study therefore aimed to establish service quality determinants which may have a good relationship with customer satisfaction in FNU libraries.
