Noninvasive Treatments for Acute Subacute and Chronic

February 13th, 2017 - Low back pain is one of the most common reasons for physician visits in the United States. Most Americans have experienced low back pain and approximately one quarter of U.S. adults reported having low back pain lasting at least 1 day in the past 3 months. Low back pain is associated with high costs including those related to health care and indirect costs from missed work or reduced productivity.
