April 2nd, 2019 - I have a power loss on a Detroit 60 series engine its in a
freightliner classic 2003. The motor works fine there is no probel in the fuel
lines collapsing and the pressure valve on the return line is ok I ve
changed out the trs and srs sensors and air to air was replaced but still I m
losing power at the end of the high gears when driving with or without a
load very slow acceleration but
