Cambridge IGCSE Chemistry Grade Thresholds 2013

The grade thresholds for Cambridge IGCSE Chemistry syllabus 0620 are as follows:

- **Minimum Raw Mark Required for Grade C:** 24
- **Minimum Raw Mark Available:** 80
- **Grade Threshholds:**
  - **Grade A:** 57 marks
  - **Grade B:** 49 marks
  - **Grade C:** 41 marks
  - **Grade D:** 33 marks
  - **Grade E:** 25 marks
  - **Pass:** 17 marks
  - **Fail:** 0 marks

The thresholds are determined by adding together the thresholds for the components, starting with Component 2, and applying a floor of 0 marks for the lowest grade. For example, for Grade A, the threshold is set 8 marks below the B threshold, and the D threshold is set another 8 marks down. If dividing the interval by three results in a fraction of a mark, the threshold is normally rounded down. The thresholds for the syllabus are determined first by adding together the thresholds for the components. The grade thresholds for the syllabus are published after each exam series.

Cambridge International A and AS Level Chemistry builds on the skills acquired at Cambridge IGCSE or equivalent level. The syllabus includes the main theoretical concepts which are fundamental to the subject, with a section on some current applications of chemistry and a strong emphasis on practical work. Past exam papers and mark schemes for this syllabus are available on the Cambridge website.

The grade thresholds for IGCSE Chemistry in the October November 2013 examination are as follows:

- **Grade A:** 57 marks
- **Grade B:** 49 marks
- **Grade C:** 41 marks
- **Grade D:** 33 marks
- **Grade E:** 25 marks
- **Pass:** 17 marks
- **Fail:** 0 marks

The grade thresholds are determined by adding together the thresholds for the components, starting with Component 2, and applying a floor of 0 marks for the lowest grade. For example, for Grade A, the threshold is set 8 marks below the B threshold, and the D threshold is set another 8 marks down. If dividing the interval by three results in a fraction of a mark, the threshold is normally rounded down. The thresholds for the syllabus are determined first by adding together the thresholds for the components.

The grade thresholds for IGCSE Chemistry in the November 2018 examination are as follows:

- **Grade A:** 57 marks
- **Grade B:** 49 marks
- **Grade C:** 41 marks
- **Grade D:** 33 marks
- **Grade E:** 25 marks
- **Pass:** 17 marks
- **Fail:** 0 marks

The grade thresholds are determined by adding together the thresholds for the components, starting with Component 2, and applying a floor of 0 marks for the lowest grade. For example, for Grade A, the threshold is set 8 marks below the B threshold, and the D threshold is set another 8 marks down. If dividing the interval by three results in a fraction of a mark, the threshold is normally rounded down. The thresholds for the syllabus are determined first by adding together the thresholds for the components.
