Coke bottle styling Wikipedia
April 19th, 2019 - As tailfins were influenced by jet aircraft of the 1950s, stylists were inspired by supersonic planes. Automotive designers incorporated the wasp waist body shape among numerous passenger cars as they found that the previous ponton appearance seemed dated. Cars with this style treatment earned this term by having more rounded body panels with arcs over the wheelwells, making them resemble. nye chilton gr det selv bøger til bil kr 250 pr stk.
