Chrysler Capital Lease Rate Sheet

Chrysler Capital, the jointly managed venture between Santander Consumer USA and Chrysler Group, begins operating today in the United States as the quasi captive finance arm of Chrysler. I work for an auto dealer group in finance, and in my personal experience, Chrysler Capital is a very competitive bank and offers some great things. If you are in the market for a new credit card whenever they send you into Chrysler Capital, it will show a pre-approved offer for the Jeep Mastercard that you can use for accessories. This exclusive program offers eligible participants the opportunity to purchase lease most new Alfa Romeo Chrysler Dodge Fiat Jeep and Ram vehicles and enjoy them with unique and substantial discounts.

Get started below:

How does it work?

It's easy as 1 2 3,

- The company has both operating and capital leases which are separately accounted for and recorded on the company's condensed consolidated balance sheets.
- Operating leases are reported as leased vehicles net while capital leases are included in finance receivables held for investment net.
- Once you have an idea of which lenders can offer the best rate, you can often negotiate that rate even lower since auto dealerships often have more flexibility than other lenders. Your dealership may be willing to match or beat quoted rates from other lenders.

Make sense of the financing process:

Is an Ally Bank auto loan right for you?

Ally Bank claims to offer competitive rates and has helpful features on its auto loans. Plus, it has a comprehensive lineup of protection products.

The downsides for consumers are that the company has a reputation for less than stellar customer service and it does not lend directly to you. FCA announced that it will establish its own captive finance arm. FCA is the only big carmaker without a captive.

CEO Sergio Marchionne will retire in 2019 and wants to leave FCA in good shape. To key findings:

- Interest rates for new cars are at one of their lowest points in the past three years.
- However, the average new car loan now charges 12 percent less interest than the average used car loan.

Don't finance with Chrysler Capital:

That is the easiest answer. Stick with a local credit union or a large national bank like SunTrust, BB&T, etc. Depending on where you are around here, rates are 1.9% for up to 60 months with the CUS and 2.5% for 72-75 months. Some banks like RBC Citizens have been hyper-aggressive lately with their rates as well.
