of the oldest methods of traditional chinese medicine the earliest recorded use of cupping dates to the early fourth century when the noted herbalist ge hong wrote about a form of cupping in a handbook of prescriptions later books written during the tang and qing dynasties described cupping in great detail one textbook included an entire cupping therapy is an ancient form of alternative medicine cupping is used in more than 60 countries its usage dates back to as far as 1 550 b c there are different forms of cupping the most common are dry wet and fire cupping cups are applied onto the skin and a suction is created pulling the skin up in conclusion chinese medicine holds the body and its capacity for healing in great reverence it does not see itself as an outside force that is able to heal the body but as a way to help adjust the body and bring it back into balance so that health is restored in essence it is not the practitioner doing the healing it is the body over time the number of points identified by acupuncturists has expanded expanding the acupuncture points chart there are additional channels with their own sets of points special points located off channels and complete maps of body structures by points along the ears nose scalp hands feet wrists and ankles the acupuncture points chart is a complex map of the human body used by practitioners of traditional chinese medicine in diagnosing and treating patients originally highlighting 365 points a figure that corresponds to the number of days in a year acupuncture professionals have since identified many more points and channels between them three chinese acupuncture charts in full color illustrating all the acupressure points acupuncture points and 12 meridians front back and side views each on it s own full body point chart these anatomical acupuncture charts of the male body are folded twice and shipped in a protective sleeve if pain is the essence of disease then suffering is a result of obstructed or irregular flow in the body chinese cupping is therefore a method of breaking up the blockage to restore the body s natural flow of energy cupping combined with acupuncture generally cupping is combined with acupuncture in one treatment but it can also be used cupping is used when the qi is blocked at
certain points or when qi needs to be drawn to the surface of the body from deep within for instance cupping is used to treat lung infections and colds because it is believed that the suction disperses and energizes the qi that has become blocked and stagnated in the lungs. to get the best deal for acupuncture supplies from the largest online selection at ebay.com browse your favorite
