I am looking to replace my air compressor. The old compressor is shot and has leaked all the refrigerant and the pulley has ceased up. My mechanic said it would be $1350 to replace recharge and new serpentine belt. The new AC compressor is about $350 so I will do myself. I am looking for any direction in replacing it such as diagrams, websites or just general knowledge.

Video of how we diagnosed a 2005 Chrysler Town and Country where the customer's complaint was the air conditioning would only work sometimes. They would be driving along with the AC working great.

My AC compressor clutch won’t engage. I’ve checked fuses and relays. What else do I need to check?
